📝 Description   Edit

Test Expected Results:

When you win a match, wins go up by one

When you lose a match, losses go up by one

Test Steps:

Start duel

Win or lose against the bot

Start another duel (if you won you need to lose this time and if you lost you need to win this time)

Keep dueling until you have at least one win and one lose

Check if the score is updating properly

Test Post-conditions

Score updates correctly after each win or lose
